There is a lot to like about this book. It is a well-written, well-structured, and well-researched work. It is a book that is both accessible and scholarly. It is a book that is both timely and timeless. It is a book that is both a contribution to the field and a book that is worth reading for its own sake.

the 1990s, the number of people in the world who are undernourished has increased from 250 million to 800 million (FAO 1996). The number of people who are malnourished has increased from 1.2 billion to 1.6 billion (FAO 1996).

There is a growing awareness of the need to improve the nutritional status of the world's population. The United Nations World Food Programme (WFP) has been instrumental in this regard, and has been successful in increasing the number of people who are receiving food aid from 10 million in 1980 to 100 million in 1995 (WFP 1996).
